Patents

Patents 11 - 20 on master slave device schedule. (0.06 seconds)

Fault data synchronization via peer-to-peer communications network

US Pat. 6405104 - Filed Mar 24, 1999 - General Electric Corporation

55 conventional **master/slave** communications network, uses a protocol which allows each **device** on the communications SUMMARY OF THE INVENTION network 14 to ...

Diagnostic system for a weld controller

US Pat. 5850066 - Filed Dec 20, 1996 - Square D Company

The **slave device's** communication response is detailed in the flow chart of FIG.... the upload and download commands between the **master** and **slave** devices. ...

Common database system for a communication system

US Pat. 5859847 - Filed Dec 20, 1996 - Square D Company

The **slave device's** communication response is detailed in the flow chart of FIG.... the upload and download commands between the **master** and **slave** devices. ...

Pseudo-random dynamic scheduler for scheduling communication periods between electronic devices

US Pat. 7024482 - Filed Nov 20, 2001 - Sharp Laboratories of America, Inc.

The **master device** typically initiates and controls the connection, while the **slave** responds to the **master's** commands. The **schedule** typically uses the time ...

System and method for a master scheduler

US Pat. 6222530 - Filed Aug 21, 1998 - Corporate Media Partners

1 is a high-level overview of an exemplary embodi- **Master/Slave** Scheduler API... 120 through Service/**Master Device** Specific API 190a as part of **Slave** Task ...

Token device for distributed time scheduling in a data processing system

US Pat. 5253252 - Filed Mar 12, 1991 - The Foxboro Company

The bus **master** playing the token passing bus access method of the does so and... The de- the **slave device** 14 cannot initiate a transmission since it vice ...

Multi-master computer system with overlapped read and write operations and scalable address ...

US Pat. 6772254 - Filed May 15, 2001 - International Business Machines Corporation

20, 1997 discloses a process and system for transferring data including at least

one **slave device** connected to at 60 least one **master device** through an ...

System having independently addressable bus interfaces coupled to serially connected multi ...

US Pat. 5615404 - Filed Oct 31, 1994 - Intel Corporation

As will be appreciated that under the **master/slave** model of flow control, ...management such as generation and maintenance of the polling **schedule**, ...

Method and apparatus for serial bus elements of an hierarchical serial bus assembly to ...

US Pat. 5621901 - Filed Oct 31, 1994 - Intel Corporation

Under the **master/slave** model, the bus controller 14 provides flow control for ... in accordance to a polling **schedule** which guarantees latencies and band- ...

Method and apparatus for hybrid packet-switched and circuit-switched flow control in a computer ...

US Pat. 5852718 - Filed Jul 6, 1995 - Sun Microsystems, Inc.

The control system of claim 1, wherein said system component comprises: a system controller coupled between the **master device** and the **slave device**, ...
